

CENTRAL INTELLIGENCE GROUP

FOREIGN BROADCAST INFORMATION BRANCH

Office of the Chief

January 17, 1947

On November 16, 1946, the [] FBIB monitored and recorded an article from RED STAR broadcast on the Government Home Service at 11:00 GMT. The author of the article, Arnoldov, related how, during a tour of the western occupation zones, he had uncovered definite evidence that the Allied Military Authorities were sponsoring "complete military fascists organizations of Ukrainian, Belo-Russian, and Baltic nationalities."

STAT

This article named specific camps, gave specific locations, and listed names of participants. It also made specific allegations regarding open fascist activities in Munich. Because of the gravity of the charges and because the wealth of detail found in the text precluded adequate summarization, the entire text was forwarded to G-2 in Frankfurt. A few days later the following confidential cable sent by Gen. McNarney, was received:

"Your initiative in sending us full text of RED STAR article broadcast on alleged repatriation difficulties was greatly appreciated and will be the basis of prompt action to secure an explanation from local Soviet representatives."
